Passion for peppers

Welcome to the Westland Seeds catalogue 2023/2024.

Westland Seeds (founded in 2008) is a small-scale, independent Dutch company involved in the breeding of different types of peppers. We specialise in blocky peppers and snack peppers, sweet pointed peppers and hot peppers.

Our breeding program is based on decades of experience and focuses on the development of varieties that meet specific needs of the different market and cultivation conditions in the world.

Working with our global distribution network, we sell our commercial varieties all over the world.

This way we serve clients within various climate zones and in the low-, mid- and hightech segments.

Would you like more information about our pepper varieties? Our dedicated employees will be happy to answer all your questions.

Your sincerely,

Ferry Strik - Managing Partner

Wim Grootsholten - Founder

Iwan van Vliet - Managing Partner
